WHAT DID MANKIND EAT! From the Des Moines Register

When one investigates how few of the vegetables which now constitute human food were known or used in Bible days, it is difficult to imagine what they aubsisted on. In those days they had neither potatoes, cab days they had neither potatoes, cab-hage, tomatoes, peas, strawberries, blackberries, raspberries, corn imalze), sweet potatoes, lettuce, radishes, beets, celery, carrols, and hundreds of other things which are now considered indispensable. About the only things which grow in our gardens and which are refer-red to in the Bible are beaus, cu-combers and onlous. And they must have been scarce, as onlone are named only once, and beans twice. And the diversified uses now to which the cereals, such as wheat, oats, rye and barley, were known to but a limited extent in early times. If mankind were at this day reduced to the plain regulation of the "black broth" of the Sparians, they would begin to think their rations were nearly as short as they are now in the fire ravaged prairies of Dakota.

It is un-American in the higher sense for our people to prate about Europe so glibly when so many of them are profoundly ignorant of the wondrous beauties of their native land. As a matter of fact there are hundreds of thousands of American hundreds of thousands of American citizens who are thoroughly familiar with Switzerland; who have idied away weeks at Lucerne, done Chamouni, and attempted the Matterhorn, and yet have never feasted on the lovely beauty, the wild weird majesty of any one of the Colorado Peaks. "More than Alpine glory" rewards visitors along the South Park Division of the Union Pacific in Colorado. There is no accounty like it in the new world.

O2 the authority of recent scient tific experiments, Dr. Hudson, of Stockton, Cal., controverts the popular opinion that whiskey is an autidote to rattlesnake bite. The virus, after being mixed with alcohol, was injected into the veins of animals, and its power was found to be undiminished. Whiskey administered to a person poisoned by snake-bite may be useful in sustaining the flagging powers while the poison is being climinated by the excretory organs, but it does not in any manner neutralize its effects

We desire to say that we will offer you the following first-class machines at market prices for the season.

FARMERS AND THRESHERMEN OF

CELEBRATED

Strong, light and durable. No experiment, but a proved success. Simple in construction; not one piece too many, but just enough to do the work equal to any machine made, and the BEST OLD MACHINE ON EARTH.

The old Buckeye is too well known to need comment. Be sure and see the NEW LIGHT BUCKEYE FOLDING BINDER before you make your selection. It is fully warranted in every part, place and particular, and sold on as reasonable time as any first-class Harvester in the market.

We are Also Agents for

FAMOUS EMPIRE

This is one of the oldest binders in the market, but flot as well known in Saline County as some others. We will venture the assertion that if you will come and see this MARVEL OF SIMPLICITY, that we will be able to convince you that it is the BEST. It has twenty-six pieces less than the Appleby Binder and weighs one hundred pounds less than other binders. Every part is in sight, hence easily adjusted. The advantage of this binder over others can be seen at a glance.

We will have a CAR-LOAD OF FIRST CLASS BINDING TWINE in to sell to

our friends as LOW AS THE LOWEST.

Stickle Header.

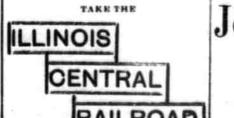

Those of you who wish to buy a header cannot do better than come and place an order for the STICKLE STEEL FRAME HEADER. At this time the LIGHTEST HEADER IN THE MARKET. We will give you as LOW PRICES and easy terms as any of our competitors.

To The Threshermen.

We desire to say that we are agents for the FAMOUS NICHOLS & SHEPHERD CO'S VIBRATOR and J. I. Case & Co's IRONSIDES AGITATOR. These machines have no equal in this market. The IRONSIDES has a CAST IRON CYLINDER FRAME, and has WROUGHT IRON WHEELS---a feature heretofore unknown in this particular line.
